

Decentralised Future Education Program

How does a Blockchain work ? & Bitcoin like I'm Five

NEXT GENIUS

Blockchain Technology

- What is a Blockchain ?
- How do they work ?
- What are the different kinds of blockchains ?

Distributed Ledger Technology/Blockchain

- P2p network
- Permissionless
- Trustless
- Censorship resistant.
- Immutable data.
- Cryptographically secure.
- Consensus mechanism.
- Changing the world one block at a time.

Transactions, mining and state logs.

- Accounts
- Wallets
- Token amount
- Transaction fees
- UXTO pool, memory pool or transaction pool
- Hash power
- Block size
- Block times
